Corrosion Control Safe Products

PRODUCT INFORMATION

VAPPRO 800

Multi-Purpose Cleaner/Degreaser

NATO STOCK NUMBER: 6850-32-076-1080

DESCRIPTION

Vapro-800 is a water-based heavy-duty multi-purpose cleaner/degreaser. It is specially formulated using powerful detergents, emulsifiers, wetting agents and Vapor Corrosion Inhibitor to meet the requirements for cleaning heavy vehicles and provides temporary corrosion protection.

This product will clean and dissolve grease, oils, road film, insect residues, smoke and soot, and similar types of accumulated debris from automobiles, large and small transport trucks, trailers, buses, taxis, boats, mobile homes, recreational vehicles, planes and farm equipment. When used with pressure washing equipment, this product provides effortless cleaning, rapid penetration through layers of buildup, and streak-free rinsing from surfaces.

This compound safely cleans road film from expensive automotive finishes without diluting the luster. The product is safe enough to be used on glass, aluminum and most types of painted and finished metallic surfaces. An added safety feature of this compound is that it will not damage, dry or crack rubber and plastic moldings around windows and doors.

This product is so versatile that it may be used by a wide variety of industrial and institutional facilities such as truck fleets, auto and truck rental agencies, bus garages, commercial car washes, new and used car dealers, equipment rental companies, military equipment, military vehicle, mobile home and recreational vehicle dealers, vehicle maintenance shops and aircraft maintenance shops.

The details of our products are given completely free of undertaking. Since their application lies outside our control, we cannot accept any liability for the results. User shall determine the suitability of the product for its intended use, and user assumes all risk and liability whatsoever in connection therewith.

While most cleaning compounds available on the market today are simply blends of surfactants and detergents, **Vapro-800** offers improved cleaning plus corrosion protection action. Cleaned surfaces bright and shiny. No need to wipe or polish surfaces.

VAPPRO-800

FEATURES

- *Heavy-duty chemical cleaner and degreaser with unique cleaning action through solubilization of hydrocarbon deposits.
- *Inhibitor against corrosion attack on metals leaves temporary protective coating.
- *Non-toxic, non-corrosive, phosphate free and biodegradable.
- *Provides excellent cleaning action at low temperatures.

DIRECTIONS FOR USE

Dilution ratios vary according to degree of soil, type of soil to be removed, amount of sudsing desired and temperature and amount of pressure available with equipment.

Some suggested dilution is as follows:

Heavy accumulations	1:30 with water
Cars, Taxis, Light Soils	1:50 with water
Boats, Mobile Homes, Recreational Vehicles	1:80 with water

PRODUCT SPECIFICATIONS

Color	Light Golden Yellow
Clarity	Clear
Viscosity	Slight
PH	12.25 to 13.00
Specific Gravity	1.080 to 1.090
Shelf Life	2 Years in sealed container
Flash Point	Non flammable
