

Your Corrosion Solution

PRODUCT INFORMATION

VAPPRO 811G

Function:
Metal Rust Remover

Application:
Rust Remover

Form:
Gel

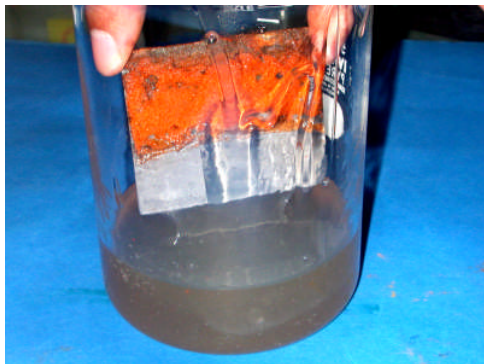

DESCRIPTION

Vapro 811G is 100% completely organic and highly biodegradable gel scale and rust remover. It is a dark amber viscous gel that effectively removes rust, stains and tarnish from iron, steel, brass, copper, aluminum and chrome.

It is specially formulated to remove calcium and magnesium scales, corrosion from both ferrous and non-ferrous metals without creating waste disposal difficulties.

Vapro 811G has no known adverse effect on human skin, paints, wood, plastics, ceramics or rubber when used as recommended.

It is essentially non-toxic, non-corrosive, non-flammable, and mild odour properties make it ideal for both in-plant and outdoor applications.

Dip Application

Treated With Vapro 811G

FEATURES

* Non-corrosive
* Non-toxic
* Non-flammable
* 100% completely organic
* Highly biodegradable
* Non-polluting to environment
* Prevents flash rusting

The details of our products are given completely free of undertaking. Since their application lies outside our control, we cannot accept any liability for the results. User shall determine the suitability of the product for its intended use, and user assumes all risk and liability whatsoever in connection therewith.

VAPPRO 811G

- * Safe to handle, use and store
- * Effectively removes scales, stains, rust, corrosion, and tarnish from most surfaces
- * Suitable for in-plant and outdoor use
- * Suitable for vertical, overhead or underside horizontal surfaces
- * Non-dripping

PHYSICAL PROPERTIES

Appearance	Dark amber viscous gel
Odour	Mild
Viscosity	Viscous gel
pH	1.5
Flash Point	Non-Flammable

APPLICATION

- * Automotive, marine and industrial equipment
- * Marine and offshore superstructures
- * In-process rust removal for metal parts
- * Heat exchangers
- * Boilers
- * Pumps
- * Interior and exterior surface of tanks and vessels

DIRECTION FOR USE

Apply **Vapro 811G** by brush directly on rusted surfaces and leave for 10 to 20 minutes before wiping and rinse-off with fresh water.

For dip application, remove heavy deposits or flake rust. Soak part(s) into containing **Vapro 811G** as long as required to remove corrosion, scales and carbon deposits.

Remove from tank and rinse with Vapro 800 to neutralize and for additional corrosion protection.

PACKAGING

Vapro 811G is packaged in 20 litres pail or 200 litres drum.
