EVAPO-RUST IS SAFE AND EASY TO USE

| | | |
|------------------------------|---------------|---------------|
| Not a primary eye irritant | No VOC's | No Acids |
| Not a skin irritant | No HAP's | No Caustics |
| Non-Toxic dermally or orally | No Solvents | Non-Corrosive |
| Non-Hazardous | Biodegradable | Non-Flammable |

EVAPO-RUST™ is non-hazardous and ships U.S. Postal, UPS or regular freight. EVAPO-RUST™ is designed as a soak (dip) and will remove even deep rust on all types of mild steel and iron. Fully immerse the rusted item in EVAPO-RUST™; no scrubbing necessary. Soak times will vary from 30 minutes to 24 hours depending on severity of rust, type of steel, and bath temperature. Because EVAPO-RUST™ is water based, the effectiveness will slow down as temperature decreases below 60° F and increase as temperature increases. EVAPO-RUST™ works through selective chelation at a pH of 6.1 to 7.0 (neutral) and does not require any special equipment or personal protective wear. It is non-corrosive to steel and does not harm brass, copper, aluminum, gold, lead, titanium, steel, cast iron, chrome solder points, vinyl, plastic, rubber, silicone, glass, cork, or wood. EVAPO-RUST™ has an indefinite shelf life and can be used over and over until it absolutely stops working. On average, one gallon de-rusts up to 300 pounds of light to moderately rusted steel.

WEAPONS/COATINGS

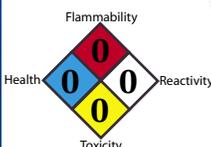

EVAPO-RUST™ is perfect for removing weapon finishes such as Bluing, Parkerizing, Zinc Phosphate, and Browning. Other coatings such as anodizing, powder coating, chrome, nickel, paint, and most other coatings will not be removed as long as they are still adhered to the surface and do not contain oxides. EVAPO-RUST™ is highly recommended by the NRA gunsmithing school and is utilized by FBI, CIA, NATO and other law enforcement and forensics agencies.

THE ONLY THING YOU HAVE TO LOSE IS RUST

AWARD - Top 100 Inventions of the Year
AWARD - Outstanding Technology in Industrial Cleaning
NOMINATED - The Presidential Green Chemistry Challenge Award

Evapo-Rust has also been the focus of many articles from trade magazine such as Auto Restorer, Street Rodder, Skinned Knuckles, Clean Tech, Muscle Car Enthusiast, Hemmings Muscle Machines, Popular Mechanics, and many more.
