

KPR LIQUID RUST REMOVER

KPR Rust Remover Liquid

Biodegradable, Non-hazardous rust remover. Remarkable rust removal solution so safe it can even ship by AIR!

Each gallon of KPR Rust Remover Liquid can remove 1/2 pound of pure dry rust. On average this amounts to derusting of approximately 355 pounds of moderately rusted metals.

- Safe on skin (near neutral pH material)
- Acid Free (NO acid)
- Neutralizing NOT required
- Solvent Free (NO solvent)
- Used extensively in home, industrial & military applications
- Rapidly removes corrosion in minutes
- Non-flammable, non-hazardous, non-fuming, odorless rust remover

Rust removal liquid contains short term corrosion inhibitors, however; For optimal results and long term long term corrosion protection one of the following options is recommended:

Package the part in VCI plastic or VCI paper corrosion preventative packaging when the wet part has dried.

OR

For conditions where packaging is not practical follow with a clean water rinse and apply a suitable corrosion inhibitor or coating.

5 Gallon US Gallons Also available in 55 gallon drums. Call 1-866-577-2326 or email your request
